are you satisfied with your current and traditional grading system does it accurately reflect your students learning and progress can it be gamed does it lead to grade grubbing and friction with your students the authors of this book two professors of mathematics with input from colleagues across disciplines and institutions offer readers a fundamentally more effective and authentic approach to grading that they have implemented for over a decade recognizing that traditional grading penalizes students in the learning process by depriving them of the formative feedback that is fundamental to improvement the authors offer alternative strategies that encourage revision and growth alternative grading is concerned with students eventual level of understanding this leads to big changes students take time to review past failures and learn from them conversations shift from why did i lose a point for this to productive discussions of content and process alternative grading can be used successfully at any level in any situation and any discipline in classes that range from seminars to large multi section lectures this book offers a comprehensive introduction to alternative grading beginning with a framework and rationale for implementation and evidence of its effectiveness the heart of the book includes detailed examples including variations on standards based grading specifications grading and ungrading of how alternative grading practices are used in all kinds of classroom environments disciplines and institutions with a focus on first hand accounts by faculty who share their practices and experience the book includes a workbook chapter that takes readers through a step by step process for building a prototype of their own alternatively graded class and ends with concrete practical time tested advice for new practitioners the underlying principles of alternative grading involve evaluating student work using clearly defined and context appropriate content standards giving students helpful actionable feedback summarizing the feedback with marks that indicate progress rather than arbitrary numbers allowing students to revise without penalty using the feedback they receive until the standards are met or exceeded this book is intended for faculty interested in exploring alternative forms of learning assessment as well as those currently using alternative grading systems who are looking for ideas and options to refine practice

the margot fonteyn academy of ballet offers complete education in ballet and related art forms music drama and painting for students who aim to have a professional career in classical ballet or any other type of professional dance we offer residency and visa support for international students students from the united states who do not live in the new york area can also apply for housing through mfab the lower school accepts applicants from ages 8 15 the upper school accepts applicants from age 16 22 you must audition

this research topic has three main goals 1 provide a platform for instructors of organic chemistry to showcase evidence based methods and educational theories they have utilized in their classrooms 2 build new and strengthen existing connections between educational researchers and practitioners and 3 highlight how people have used chemical education based research in their teaching practice there are places in the literature dedicated for chemical education research cer however there is not a clear avenue for those that have changed their teaching methods based on published cer and report their experiences creating this article collection will foster collaboration between chemical education researchers and teachers of organic chemistry this opportunity allows these instructors to share evidence based practices experiences challenges and innovative approaches from cer literature and

beyond this research topic bridges discipline based education research and the scholarship of teaching and learning which will help advance organic chemistry education and improve student outcomes

the international handbook of psychology learning and teaching is a reference work for psychology learning and teaching worldwide that takes a multi faceted approach and includes national international and intercultural perspectives whether readers are interested in the basics of how and what to teach in training psychology teachers in taking steps to improve their own teaching or in planning or implementing research on psychology learning and teaching this handbook will provide an excellent place to start chapters address ideas issues and innovations in the teaching of all psychology courses whether offered in psychology programs or as part of curricula in other disciplines the book also presents reviews of relevant literature and best practices related to everything from the basics of course organization to the use of teaching technology three major sections consisting of several chapters each address teaching psychology in tertiary higher education psychology learning and teaching for all audiences and general educational and instructional approaches to psychology learning and teaching

about 550 registrants from 51 different countries attended the seventh ottawa conference on medical education and assessment in maastricht we received 525 abstracts for the conference divided in thematic poster sessions and platform presentations organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous ottawa conferences during and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression despite the large number of papers the editors have attempted to review and edit the papers as care fully as possible occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers although we felt that our editorial task was not quite finished we nevertheless decided to include these papers we thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests we are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education the editors want to thank jocelyn flippo berger whose expertise with desk top publishing and perseverance was a great help

everyone hates exams and there s nothing worse than staring blankly at an exam paper knowing you can t answer the question john croucher has uncovered excuses and cheating techniques used by students around the world to avoid exams to assist their memories or to explain poor marks from underwear inspections to student riots this is a collection of outrageous and often surprising stories exam scams is hilarious reading for every student who has sat an exam and for every lecturer who has marked an exam paper
